## Hand 2 Heart

MEDICAL STAFFING

Experienced | Reliable | Caring

Our nurses provide care to a cluster of students

they are a support to the classroom

involved in IEP goals

nurses assist with ALL the students in the classroom

Special-Ed nurses are well-trained, observant, and caring

**Detailed nursing cares include:**

- » assess and observe students within classroom for potential health risks
- » monitor vital signs
- » take seizure precautions
- » maintain patient airway of trach student
- » bandage/treat simple abrasions
- » help prevent the spread of infection
- » contact parents and/or emergency medical help if student is unstable
- » administer medication
- » any other standard of care nursing practice

**In addition to nursing cares, our nurses:**

- » assist special education teachers and aide in students accomplishing students' IEP goals
- » are versatile in the classroom; from suctioning to k
- » lift and position to spreading enthusiasm for learning—we are in your extra hand in the classroom
- » teach staff, students and parents applicable healthcare information
- » ride buses with students when medical need(s) dictate
- » follow HIPPA standards and student medical information confidentiality
- » conduct themselves in professional manner
